👤 İsmet Uygur

🔗 İsmet Uygur

📄 PROFILE

- Experienced in environmental data analysis and wastewater treatment through multiple TÜBİTAK research projects.
- Specialized in laboratory-scale Fenton and adsorption processes; managed IT-based experimental optimization.
- Multilingual (English, Spanish, Indonesian) translator at Wolfblood; improved workflow efficiency.
- Bridging environmental engineering with software tools to deliver practical, scalable sustainability solutions.

📁 PROFESSIONAL EXPERIENCE

06/2022 – 08/2022
Çayırova, Kocaeli

Altınyıldız Frame Space Factory

Engineer Intern

- Managed on-site wastewater treatment operations, ensuring effluent discharge compliance and sustainable waste management.
- Performed precise analytical testing with spectrophotometers, pH meters, colorimeters, and balances to uphold quality control standards.
- Calibrated and maintained laboratory instruments, guaranteeing accurate measurements and data integrity.
- Executed standardized environmental testing protocols, supporting regulatory compliance and product consistency.
- Maintained detailed records of test results and observations, enabling reliable data traceability and validation.
- Conducted routine laboratory maintenance, enhancing safety and operational efficiency.

03/2025 – 06/2025
Gebze, Kocaeli

Gebze Technical University (İŞKUR)

Chemical Laboratory Assistant

- Modeled eco-friendly dye removal using biochar, improving wastewater treatment sustainability.
- Applied machine learning to predict dye removal efficiency, optimizing experimental design.
- Maintained detailed experimental records to ensure reproducibility and data integrity.
- Evaluated and enhanced analytical methods, increasing test reliability and precision.

06/2025 – 10/2025
Gebze, Kocaeli

Gebze Technical University

Project Assistant

TÜBİTAK 1001 Project (Sea of Marmara / Susurluk Basin)

- Performed soil and water analyses to support climate-based nutrient modeling.
- Assisted in integrating analytical data into ML-based environmental predictions.

10/2025
Gebze, Kocaeli

Gebze Technical University

Volunteer Project Assistant - TÜBİTAK 1001-ARDEB Project

- Assisted in the production of biochar and polymer-coated heterogeneous Fenton catalysts.
- Performed catalyst characterization (XRD, XRF, SEM-EDS, BET, FT-IR) and participated in wastewater degradation experiments.
- Contributed to laboratory experiments, data collection, and interpretation of research results.

08/2026 – 08/2026
Maltepe, İstanbul

AEM Laboratory
Engineer Intern

- Managed rigorous environmental field preparations, including sample bottle organization, precise tagging protocols, and comprehensive report documentation.
- Conducted vital on-site measurements for essential environmental parameters before safely transporting samples to the laboratory.
- Executed 20 standardized analytical methods, including TKN, COD, and ICP-OES heavy metal analyses, ensuring precise environmental assessment.
- Documented daily analytical procedures from initial field collection to final reporting to maintain strict quality assurance and continuous data traceability.

09/2026 – Present
Gebze, Kocaeli

Gebze Technical University
Project Assistant

- TÜBİTAK 1001-ARDEB Project (Boron-Doped Biochar & Fenton)
- Synthesized sustainable, boron-doped biochar catalysts utilizing iron wastes for advanced wastewater remediation.
 - Executed sunlight-assisted heterogeneous Fenton degradation processes to efficiently remove recalcitrant organic pollutants.
 - Conducted comprehensive material characterization on the catalyst plates to evaluate structural properties and treatment efficacy.
 - Integrated experimental degradation data to support Artificial Intelligence (AI) optimization of the treatment process.

 EDUCATION

2020 – 2026
Gebze, Türkiye

University
Gebze Technical University 

2016 – 2020
Cevizli, Türkiye

High School
Orhangazi Anatolian IHL 

 PROJECTS

06/2026 – Present

TÜBİTAK 2209-A Porject
Project Manager
Led a TÜBİTAK 2209-A funded undergraduate research project on UVA assisted heterogeneous Fenton oxidation using bauxite ore, red mud, and iron-based minerals for textile dye and wastewater treatment. Performed catalyst characterization using XRD, XRF, SEM-EDS, BET, and FTIR analyses, conducted process optimization through degradation, mineralization, and kinetic modeling studies, and evaluated the environmental sustainability of the process using Life Cycle Assessment (LCA). Applied machine learning techniques for process modeling and performance prediction.

2023 – 2026

Wolfblood (Telegram) 
Translator & Junior Developer
Led a multilingual translation team (EN–TR–ES–ID–AR), ensuring terminology consistency, training members in GitHub workflows, and delivering 100+ technical documents with 98% accuracy. Optimized Python scripts to resolve functionality issues and enhance backend performance, while contributing to software and web development with cross-platform feature support and UX improvements, and designed web pages to improve usability and presentation.

2022 – 2024

Narrador (Telegram) 
Translator & Junior Developer
Led a multilingual translation team, managing contributors and workflows on GitHub while ensuring terminology consistency. Translated and localized 100+ technical documents (ES–EN–TR) with high linguistic and technical accuracy. Reviewed and debugged files to resolve syntax/code issues, coordinated cross-team communication, and supported software development by testing features and reporting critical backend/frontend bugs.

ACADEMIC STUDY

09/2024 – 01/2025	ENVE 403 - Wastewater Treatment Plant Design  Aydın - Kuşadası WWTP
09/2024 – 01/2025	ENVE 407 - Sustainability Concepts in Environmental Engineering  Happy Planet Index (HPI)
09/2024 – 01/2025	ENVE 418 - Membrane Processes  Reverse Osmosis & Forward Osmosis
02/2025 – 06/2025	ENVE 417 - Air Sampling and Analysis  Phthalates
02/2025 – 06/2025	ENVE 419 - Water Reuse and Recovery  Oil & Gas Industry
02/2025 – 06/2025	ENVE 429 - Industrial Waste Management  Galvano Proje - Steel Industry
02/2025 – 06/2025	ENVE 430 - Environmental Law and Management  Green Deal & Carbon Board Adjustment Management (CBAM)
02/2026 – 06/2026	ENVE 314 - Environmental Impact Assessment  Assessment of the Environmental and Health Impacts of Electronic Waste Recycling Processes
02/2026 – 06/2026	ENVE 315 - Energy and Environment  Biogas plant for a livestock farm with a capacity of 1000–2000 cattle
09/2025 – 06/2026	ENVE 491-492 Graduation Project I-II  Use of Bauxite as Heterogeneous Catalysts for Textile Dye Removal in the Fenton Process and Kinetic Modeling
